

### DESTINATIONS Most recent

**CULTURE LOCKER** is a travel source for those keen on culture and history. We love historical sites, galleries, museums and significant architecture. We especially enjoy throwing light on lesser-known episodes of culture and history, and revealing smaller sites with intriguing tales to tell—often found off the beaten track. We're interested in the current cultural scene: performances, exhibitions and pop culture, and in foods, drinks and goods that are the unique expressions of a particular place.

**We're based in Vancouver, Canada**

#### HOW WE WORK

Meridian Writers' Group/Culture Locker employs professional journalists and pays them for their work. Their only loyalty is to the reader. **We are not "influencers."**

We are pleased to accept invitations that allow our journalists to learn firsthand about places, events and products in order to write knowledgeably about them for our readers. Please note the terms under which we operate:

- Copy may not be vetted.
- Everything we produce is available on our website. We do not provide tear sheets or notices of publication. Samples of stories that have recently appeared in print are available at [www.meridianwriters.com/samples.html](http://www.meridianwriters.com/samples.html).
- We do not use handout photos. Our writers always take their own shots.
- We do not trade legal rights for access. Our writers may not sign waivers or contracts beyond those that a regular tourist would be required to sign.
- An assignment letter is available on request. We do not complete managerial forms or sign contracts with promotional bodies.
- All costs to be paid by the sponsoring organization must be paid up front. Our writers will not pay for services and then bill for reimbursement.
